College Mission

Divine Word College, a Roman Catholic seminary in the tradition of the Society of the Divine Word, educates men and women for missionary service as priests, brothers, sisters and laypersons. For this purpose, we offer an education that combines spiritual formation, a liberal arts curriculum, language learning and mission preparation within an environment that teaches and honors the rich cultural diversity of the world. This spiritual, academic, and experiential preparation serves the particular learning needs of our students, promotes their development as whole and responsible persons, and fosters a lifelong commitment to serving God's people.

Core Beliefs

Divine Word College embodies and gives expression to several beliefs fundamental to the Society of the Divine Word.

The Church is missionary by its very nature.

God calls some to give special witness to the Church's missionary mandate.

The missionary charism of the Society of the Divine Word, its history, heritage and hopes, is a significant contribution to the Church's missionary outreach.

Service to the local churches through apostolic ministry demands the proper education and spiritual formation of future missionaries.

Core Values

Diversity - Student recruitment efforts, the intercultural studies major, the spiritual formation program, intercultural activities, and the international teaching experience of the faculty foster and support cultural diversity at Divine Word College. Students, faculty, staff, and friends of the College grow in intercultural community, reflecting the strong international mission of the Society of the Divine Word.

Opportunity - A program of generous scholarship assistance, the Intensive English Language Institute, a low teacher-student ratio, and other academic resources meet the learning needs of Divine Word College students, especially those from immigrant and refugee communities. This commitment of College resources demonstrates an historic interest of the Society of the Divine Word in the United States in enabling the marginalized to assume their rightful place within the Church.

Community - Active involvement by members of the Society of the Divine Word in the life of the College, the organization of students into small faith communities, the Friends Across Nations (FAN) program, and the interdependence among departments and personnel foster a close-knit community at Divine Word College. College personnel in community portray the determination of the priests and brothers of the Society of the Divine Word to build community among themselves, their collaborators, and those whom they serve.

Spiritual Growth - An integrated program of spiritual direction, group retreats, daily, and special liturgies, and regular prayer opportunities support Divine Word College students, faculty, staff, and friends in the discernment of their call to follow Jesus Christ. While pursued within community, spiritual growth is highly and intensely personal.

Service - Outreach to the elderly at area nursing homes, to the poor in homeless shelters and at soup kitchens, to youth in religious education programs, and to disabled children in local care facilities is an important aspect of Divine Word College's effort to follow the example of Jesus Christ who came "not to be served, but to serve." Students and faculty members regularly put themselves at the service of the local and regional community.

Integrity - Honesty in academic policies and practices, respect for each student's freedom in vocational discernment, the provision of just compensation, fair treatment for employees, and an adherence to high ethical standards in fundraising efforts and financial reporting help ensure that Divine Word College lives its mission and delivers on its promise.

Lifelong Learning - A liberal arts education program opens students to new worlds of knowledge, broadens intellectual horizons, and provides the critical skills increasingly necessary for informed leadership and service. Carefully designed curricula lead students to an appreciation of the complex and changing social environments of our time. Educational programs open to the wider community demonstrate Divine Word College's commitment to lifelong learning as a key to effective religious and missionary service.

Our Vision

Divine Word College aspires to excel in the spiritual and academic formation of missionaries who are grounded in faith, broadly educated in the liberal arts, interculturally competent to appreciate and honor the rich diversity of the world, and committed to serving God's people.

Toward these ends, the College seeks to advance the following goals and priorities:

- Provide a continuously updated, high quality undergraduate education that is interculturally informed and rooted in the liberal arts.
- Offer an outstanding religious formation program that embodies SVD charism, values, and objectives and, for seminary students, meets the expectations of the United States Conference of Catholic Bishops' Program of Priestly Formation.
- Recruit, develop, and retain a cadre of well qualified and competent faculty and staff who are committed to advancing the College's mission
- Maintain an optimum level of student enrollment that is consistent with the requirements of excellence in teaching and learning.
- Take full advantage of technology to enhance teaching and learning as well as to maximize operational efficiencies.
- Marshal adequate resources and strive toward financial independence through development efforts and endowment opportunities.
- Assure adequate physical facilities through a program of scheduled maintenance and careful projection of future housing requirements.
- Promote the international mission of the Society of the Divine Word and the College to external constituencies through a series of special cultural and educational events, school visits, support groups, and short-term visits to the College by external groups.

Assessment Objective

Student learning is our central focus here at Divine Word College. In order to measure our students' learning and to ensure their learning experience is being addressed, fostered, and continually improved, Divine Word College has implemented various assessment processes that enable faculty and staff to gather and use assessment data, evidence, and feedback. By doing so, we strive to continually advance and improve our curriculum, course offerings, and adapt to emerging changes or trends. We are interested in knowing when and how our students learn and what we can do to improve and enhance their experience. We view assessment as an integral part of an effective institution, a successful and fulfilling student learning experience, and a productive and involved faculty contribution.

Director for Institutional Effectiveness

Job Title Director for Institutional Effectiveness

Reports to Vice President for Academic Affairs

Classification Exempt

Status Full Time

Job Purpose

The Director for Institutional Effectiveness is an at-will employee of the College who is appointed by the President and accountable to the Vice President for Academic Affairs. The Director provides leadership in implementing the College's assessment policies in the academic and co-curricular programs, facilitating the collection, analysis, and reporting of data, and providing data-driven recommendations for curricular improvements. The Director also assists with strategic planning, institutional compliance, and institutional research activities and reporting to internal and external entities.

Duties and Responsibilities

1. Collect and analyze assessment data on student achievement of Program Learning Outcomes (PLOs) in the College's academic and co-curricular programs, to include the Undergraduate degree programs, the English as a Second Language (ESL) program, and the Religious Formation Program (RFP).
2. Provide annual assessment reports to the Vice President for Academic Affairs, the Vice President for Formation and Student Life, Department Chairs, and the Intensive English Language Institute (IELI) Director.
3. Make specific data-driven recommendations for improvements in curriculum and curricular alignment across all programs.
4. Assist Department Chairs and the IELI Director with the Annual Program Review process.
5. Chair the Assessment Committee to provide for ongoing attention to assessment matters in collaboration with faculty committee members.
6. Provide periodic reports and presentations to the Faculty Senate, academic departments, and other entities regarding college assessment activities and educational resources.

7. Leverage assessment software programs in support of effective collection and analysis of data (Watermark/Outcomes Assessment Projects) and provide leadership in the HLC Assessment Academy 2020-2024 cohort project (Sparq).
8. Create, promote, and maintain effective communication strategies in support of data utilization for institutional effectiveness, including an assessment resource page on the DWCI.EDU website.
9. Teach a maximum of ten (10) contact hours per ESL Term and/or a maximum of three (3) credit hours per Undergraduate October Term (O-Term) and/or March Term (M-Term) based upon actual college needs and as assigned by the Vice President for Academic Affairs.
10. Serve as the key resource person for collecting, maintaining, and reporting institutional data to both internal and external entities.
11. Collaborate with the Registrar, Business Office, and other college personnel for annual IPEDS (Integrated Postsecondary Educational Data System) reporting requirements.
12. Assist with accreditation reporting requirements for the Higher Learning Commission (HLC), the Commission on English Language Program Accreditation (CEA), and for reporting and compliance requirements for the Department of Education and other governmental agencies.
13. Collaborate with the President and each of the four Vice Presidents regarding institutional research and data for semi-annual progress reports on the College's Strategic Plan.
14. Participate in annual professional development conferences and activities related to job responsibilities.
15. Attend weekly staff meetings with the Vice President for Academic Affairs.
16. Perform other duties as assigned by the Vice President for Academic Affairs

Qualifications

- Completed graduate degree and three years' experience in higher education administration and/or teaching experience at the college or university level.
- Knowledge of academic program assessment methods.
- Knowledge of HLC and CEA accreditation standards.
- Excellent written and oral communication skills.
- Strong analytical and critical thinking skills.
- Proficiency in the use of MS Office (especially Word, Excel, PowerPoint) and Learning Management Systems (e.g. Populi).

Working Conditions

- Work is normally performed in a typical interior/office work environment.
- Ability to work a flexible schedule.

Divine Word College Assessment Plan and Timeline

The College adheres to Allen's (2004, *Assessing Academic Programs in Higher Education*) six steps of effective institutional assessment.

The six steps of assessment include:

- 1) Creating learning objectives
- 2) Checking for and ensuring alignment between a curriculum and the established objectives
- 3) Developing an institutional assessment plan
- 4) Collecting assessment data via various methodologies
- 5) Use the given data results to improve a program
- 6) Frequently re-examine the assessment plan and process and adjust and improve where needed

DWC Assessment Plan

At Divine Word College, we ensure educational quality by following the six steps of assessment. We have established a solid and cyclical assessment plan with specific processes and elements that is faculty-oriented, data-driven and reflective of the institution's Mission. By exploring our courses, programs, and Program Learning Outcomes (PLO) through curriculum mapping, we were able to determine the status of our alignment and make changes accordingly. Our identified Signature Assignments highlight the established Program Learning Outcomes and yield data that we effectively analyze via powerful assessment software and that produces information we can use to continuously improve our students' educational experience. We close the assessment loop by using previously collected data to draw conclusions, make inferences, recognize trends, identify ramifications, and make recommendations for departmental and program improvements. Our departments produce Annual Undergraduate Department Assessment Reports that emphasize progress, improvement, reflection, analysis, and faculty engagement in the assessment process. Our Assessment Guide for Undergraduate Faculty effectively supports our faculty in their assessment efforts and provides timelines, assessment procedure outlines, templates, and more. Several of our faculty and staff have been participating in the HLC Assessment Academy to further improve the quality of our learning environment and enhance our professional development and awareness of current trends and best practices.

Through ongoing collaborations and involvement, the Academic Assessment Committee, Faculty, and Director of Institutional Effectiveness acknowledge the recursive nature of assessment and continually strive towards enhancing the quality of all programs.

Shared Assessment Language

Common Terms

In order to understand what we mean when we discuss assessment, assessment planning, or other related topics, it is imperative that we share definitions for commonly referred to words, concepts, and ideas.

Assessment Plan: a plan devised by an institution that outlines precisely what PLO is being assessed by whom, when, and how (YR).

Assessment Steps (for program assessment): Faculty develop learning objectives, check for alignment between the curriculum and the objectives, develop and implement an assessment plan, use results to improve the program, and routinely examine the assessment process and correct it, as need (Allen, 2004, p. 165)

Assessment: The collection and use of evidence to improve a product or process (Allen, 2004, p. 165)

Closing the Loop: faculty discuss assessment results, reach conclusions about their meaning, determine implications for change, and implement them (Allen, 2004, p. 166)

Coefficient alpha: An internal consistency reliability estimate based on correlations among all items on a test (Allen, 2004, p. 166)

Core Competencies: Knowledge, values, and skills that we expect our students to have/obtain through their studies at Divine Word College. While these are enforced, introduced, and promoted in our Core Curriculum, these five core competencies are also fostered and reinforced in upper level courses to ensure our students gain adequate exposure to them and opportunities to obtain these (YR).

Curriculum Alignment: Curriculum and learning objectives are aligned or matched to ensure that students are provided appropriate learning opportunities in order to achieve the identified learning objectives or outcomes. (<https://www.csun.edu/mike-curb-arts-media-communication/assessment-terms-and-definitions>)

Curriculum Mapping: the process indexing or diagraming a curriculum to identify and address academic gaps, redundancies, and misalignments for purposes of improving the overall coherence of a course of study and, by extension, its effectiveness (a curriculum, in the sense that the term is typically used by educators, encompasses everything that teachers teach to students in a school or course, including the instructional materials and techniques they use). (<https://www.edglossary.org/curriculum-mapping/>)

Direct Measure: Students demonstrate that they have achieved a learning objective (Allen, 2004, p.167).

Competence interview: Test which is orally administered (Allen, 2004, p. 167).

Portfolios: Collections of multiple student work samples usually compiled over time and rated using rubrics. The design of a portfolio is dependent upon how the scoring results are going to be used. Assessment Terms Glossary, Northern Illinois University, <https://www.niu.edu/effectiveness/assessment/index.shtml>.

Embedded Assignments: Assessment activities occur in courses. Students generally are graded on this work, and some or all of it also is used to assess program learning objectives (Allen, 2004, p. 168).

Embedded Assessment: assessment activities occur in courses. Students generally are graded on this work, and some or all of it also is used to assess program learning objectives (Allen, 2004, p. 168).

Empirical data: quantitative or qualitative data based on and obtained via varying research methods or methodologies (YR).

Formative Assessment: Assessment designed to give feedback to improve what is being assessed (Allen, 2004, p. 168)

Institutional Assessment: an on-going process designed to monitor and determine the extent to which curricular, co-curricular and institutional areas and processes support the achievement of student learning outcomes as defined by the mission of the college. (<https://www.csun.edu/mike-curb-arts-media-communication/assessment-terms-and-definitions>)

Learning Outcomes (sometimes titled “objectives”) – Statements that describe specific behavior a student is expected to demonstrate to assure the stated goal has been achieved; knowledge, skills and values students should demonstrate upon completion of a course, program or curriculum (<https://www.csun.edu/mike-curb-arts-media-communication/assessment-terms-and-definitions>)

Mission: A holistic vision of the values and philosophy of a program, department, or institution. (Allen, 2004, p.169)

Outcomes: target measures that demonstrate achievement of mission and goals (<https://www.csun.edu/mike-curb-arts-media-communication/assessment-terms-and-definitions>)

Program Assessment: An ongoing process designed to monitor and improve student learning. Faculty development explicit statements of what students should learn, verify that the program is designed to foster this learning, collect empirical data that indicate student attainment, and use the data to improve student learning (Allen, 2004, p. 171)

Program Learning Outcomes: [Measurable] (sometimes referred to as PLO; “program learning outcomes) knowledge, skills, abilities, or attitudes that students have at the completion of a degree or certificate. Faculty within a discipline meet to discuss the expected learning outcomes

for students who complete a particular series of courses, such as those required for a certificate or a degree. PSLOs should be the BIG things you want students to get out of a degree or certificate. PSLOs should be developed throughout the program and in multiple courses (<http://www.laspositascollege.edu/slo/program.php>).

Reliability: The degree of measurement precision and stability for a test or assessment procedure (Allen, 2004, 171)

Rubric: An explicit scheme for classifying products or behaviors into categories that are steps along a continuum (Allen, 2004, p. 171)

Student Learning Outcomes (sometimes referred to as SLO; “student learning objectives”) Statements of what students are expected to know and be able to do by the time they complete the major or degree. They may be stated in terms of expected knowledge, skills or attitudes. These outcomes must be consistent with the mission of the department, college, and university. (<https://www.csun.edu/mike-curb-arts-media-communication/assessment-terms-and-definitions>)

Summative: Assessment is designed to provide an evaluative summary (Allen, 2004, p. 172)

Validity: How well a procedure assesses what it is supposed to be assessed (Allen, 2004, p.173)

Assessment of Program Learning Outcomes and Assessment Tools

Signature Assignments: In order to gain insight into our students' learning, faculty have established certain Signature Assignments, which are a type of embedded assessment, that aid in the attainment of student data. These are used to assess student learning for each individual PLO. Some PLOs share one signature assignment as some signature assignments are used to measure more than just one PLO.

Upon student completion, faculty send their Signature Assignments to the Director for Institutional Effectiveness who then anonymizes the data and uploads the signature assignments to OAP. The assignments are then assessed via four designated Faculty Evaluation of Signature Assignment evaluation periods. PLO relevant faculty are assigned as Faculty Evaluators for each assessment project.

Rubrics: Divine Word College faculty utilize an array of in-house established or VALUE based rubrics in order to assess the mentioned signature assignments. These rubrics are integrated in the OAP software and coupled with the signature assignment they assess.

Rubric and Signature Assignment Review Process:

January/August:

Departments review and provide feedback on relevant signature assignments and rubrics.

October/March:

Departments submit feedback to IAC; IAC reviews and submits feedback back to Departments.

December/May:

Departments submit all final revisions to Director for Institutional Effectiveness; Director for Institutional Effectiveness updates OAP.

Software (OAP): Divine Word College utilizes the Outcomes Assessment Projects software in order to streamline its data collection and evaluation process.

Login: <https://www.watermarkinsights.com/signon/>

Student Exit Survey: All departing students complete the Student Exit Survey one to two weeks before the end of their final term/semester or within a couple of days after its end.

The procedure is as follows: The Director of Institutional Effectiveness sends the Director of Admissions the link to the Survey Monkey Student Exit Survey. Once the Director of Admissions receive a list of students who will either be leaving Divine Word College or transitioning from the IELI (Intensive English Language Institute) to Divine Word College's undergraduate program, they then send an email message to the students asking them to schedule an appointment to come to the Director of Admission's office to complete the Student Exit Survey. The Director of Admissions is also able to talk to some students individually in the hallways or in the dining room for scheduling purposes. Students make an appointment, come to the Director of Admissions' office, and access the Student Exit Survey either on the Director of Admissions' laptop or on the student's electronic device. The students complete the survey in the Director of Admissions' office under their supervision; they are available to answer any questions the students might have about the survey as they complete it. Upon completing the survey, students received a gift card for their work.

The Student Exit Survey aims to assess the following:

- Program Learning Outcomes
- Core Competencies
- Religious Formation: Human Formation, Intellectual Formation, Ministry Formation, Intercultural Community Formation, Spiritual Formation
- Intensive English Language Institute PLOs

The Student Exit Survey aims to assess the following:

- Program Learning Outcomes
- Core Competencies
- Religious Formation: Human Formation, Intellectual Formation, Ministry Formation, Intercultural Community Formation, Spiritual Formation
- Intensive English Language Institute PLOs

Compared to Program Learning Outcomes, which are assessed once per assessment cycle, Core Competencies are assessed twice via a lower- and an upper-level signature assignment. These assessment opportunities are as follows:

Core Competency	Classes
1 Critical Thinking Acuity	Lower-Level: PHI 145 Critical Thinking
	Upper-Level: PHI 499 Senior Capstone
2 a/b Communication Effectiveness	Lower-Level: ENG 200 Academic Writing

Religious Formation

As Divine Word College’s primary Co-Curricular Program, the Formation Program plays a key role in the College’s assessment procedures. According to the Policy Handbook “Religious formation assessment is an important responsibility of formators in the initial formation programs for candidates and for men and women in temporary vows”.

Religious Formation Assessment Tools

Student Exit Survey: All departing students complete the Student Exit Survey one to two weeks before the end of their final term/semester or within a couple of days after its end.

The procedure is as follows: The Director of Institutional Effectiveness sends the Director of Admissions the link to the Survey Monkey Student Exit Survey. Once the Director of Admissions receive a list of students who will either be leaving Divine Word College or transitioning from the IELI (Intensive English Language Institute) to Divine Word College’s undergraduate program, they then send an email message to the students asking them to schedule an appointment to come to the Director of Admission’s office to complete the Student Exit Survey. The Director of Admissions is also able to talk to some students individually in the hallways or in the dining room for scheduling purposes. Students make an appointment, come to the Director of Admissions’ office, and access the Student Exit Survey either on the Director of Admissions’ laptop or on the student’s electronic device. The students complete the survey in the Director of Admissions’ office under their supervision; they are available to answer any questions the students might have about the survey as they complete it. Upon completing the survey, students received a gift card for their work.

The Student Exit Survey aims to assess the following:

- Program Learning Outcomes
- Core Competencies
- Religious Formation: Human Formation, Intellectual Formation, Ministry Formation, Intercultural Community Formation, Spiritual Formation
- Intensive English Language Institute PLOs

Site Supervisor Survey: The Site Supervisor Survey aims at gaining more insight into the Ministry Site Supervisor’s perception of our DWC students while they are engaged in their ministry. This survey consists of 19 total questions, 3 of which are open-ended questions. This allows the site supervisors to comment on their perception of the students’ strengths, areas of improvement, and provide general comments.

While 11 questions aim to elicit information regarding students’ work or professional performance, 5 questions ask about students’ performance in regards to the DWC Core Competencies.

This tool is available in hardcopy and as SurveyMonkey survey.

Formation Group Survey: This tool is completed by formators who reflect on their formatees’ behavior in regards to the established Formation Program outcomes, namely Human Formation,

Spiritual Formation, Intellectual Formation, Missionary Ministry Formation, and Intercultural Community Formation.

The survey's first 4 questions elicit demographic student information.

Assessment of Academic Resource Center

Academic Resource Center Assessment Tools

Midterm Tutor Check-In: In order to gain insight into our students' learning, the ARC will distribute a survey/evaluation form to all peer tutors during the middle of each semester. Not only will this document help us gauge how the tutors feel about their work, but, more importantly, it will provide information on which questions about writing DWC students have—what are their concerns, weaknesses, gaps, priorities, etc., when it comes to writing.

Final Tutor Check-In: ARC peer tutors will again complete a survey/evaluation form at the end of the semester, responding to similar questions posed in the midterm survey. Tutor responses will indicate not only the principal questions and concerns of students/tutees late in the semester, but also show evidence of the effectiveness and success of the tutoring services for the entire semester.

Tutor Log Data: These data will include several important pieces of information. Peer tutors are required to fill out a “consultation slip” each time they meet with a student. The consultation slip has the tutor's name, the tutee's name, the date of the visit, the time/hour of the visit, the purpose of the student/tutee's visit (for example, the tutee was seeking help on her capstone paper, or her research paper for a theology course), and the primary focus of the consultation, such as grammar/syntax, paper organization/structure, thesis statement, etc.

These data will also indicate how many student/tutee visits occur each semester, when these consultations occur (dates of visits that show what part of the semester seems to be busiest or least busy in the ARC), how many students in the college are meeting with tutors (i.e., are most of the students seeking help repeat tutees who meet regularly with tutors or are there a large number of different students seeking assistance), and what the principal academic and writing issues and concerns are for the tutees/students.

Tutee Data (Informal): Beginning in the Spring 2025 semester, the Academic Resource Center has solicited feedback and comments from students regarding their experiences in the ARC. Students were asked to submit written notes in a “Student/Tutee Feedback Box” with their thoughts and suggestions about the ARC. They were asked to convey any questions, concerns, positive experiences, etc., they had about working with a tutor and/or their experience with the ARC in general.

The ARC has also encouraged students who have not worked with a peer tutor in the ARC to provide their impressions about the ARC—students who use the space for studying or conversation (such as meeting with a conversation partner), or students who have attended a workshop in the ARC during the last academic year.

Assessment of Student Learning Data – Providing Data-Based Feedback and Recommendations

To ensure that all Student Learning Outcomes and Core Competencies are continuously monitored, evaluated, and assessed, the selected members of the Divine Word College community will meet in regular intervals to ensure the recommendation phase of DWC assessment progresses effectively. The following section outlines such approaches, procedures, and attempts at learning from and improving our students' learning based on collected data.

Evaluations of procured data to make data-based recommendations for curricular changes.

What	Who	When
Program Learning Outcomes	Institutional Assessment Committee appointed Ad-Hoc PLO/CC Assessment Committee. Committee comprised of departmental faculty who are relevant to assessed Program Learning Outcome	Following 2-3 rounds of data collection for given Program Learning Outcome
Core Competency	Institutional Assessment Committee appointed Ad-Hoc PLO/CC Assessment Committee. Committee comprised of departmental faculty who are relevant to assessed CC.	Following 2-3 rounds of data collection for given CC

Process and Timeline for Data-Based Recommendations

Following two to three rounds of data collection for a given Program Learning Outcome or Core Competency, the members of the Institutional Assessment Committee assign relevant faculty to an Ad-Hoc PLO/CC Data Recommendation Committee. These Ad-Hoc Committee members meet to collaboratively create observations for each assessed PLO/CC and return their observations to the Institutional Assessment Committee. The members of the latter Committee then accept or refute the given observations, make recommendations, and send these back to the relevant department(s) for discussion and implementation of data-driven changes.

Institutional Assessment Committee – assigns Ad-Hoc Committee consisting of 2-3 PLO/CC relevant faculty – meet to assess data – make data observations – submit observations to Institutional Assessment Committee – Institutional Assessment Committee approves/rejects and submits recommendations to department(s).

Assessment Guide for Divine Word College Undergraduate Faculty

FALL SEMESTER:

August

- Double check your syllabus to ensure it fits the given Syllabus Template (*Appendix A*)
- Please submit the following items to the Director for Institutional Effectiveness:
 - o Instructions for the Signature Assignment (*Appendix B*),
 - o Rubric for the Signature Assignment (*Appendix F*),
 - o Course syllabus
 - o For a full list of items to consider and remember, please see the Cheat Sheet and Things to Keep in Mind (*Appendix C*)

September to November

- Please engage in the data collection process by administering your Signature Assignment
- If you have been selected to be a Faculty Evaluator (*Appendix D*) for other faculty Signature Assignments, please attend all relevant trainings, review all relevant materials, or contact the Director for Institutional Effectiveness with potential questions you may have.
- Review Academic PLO/CC reports each semester. Review Annual Assessment Report every year (*Appendix E*).

December

- Before you depart for Christmas Break, please make sure you have submitted the following items to the Director for Institutional Effectiveness:
 - o All “unscrubbed” (has student names on them) student Signature Assignments,
 - o Make sure that you know which of your spring courses are needed for the Assessment Plan. Plan accordingly!

SPRING SEMESTER:

January

- Double check your syllabus to ensure it fits the given Syllabus Template (*Appendix A*)
- Please submit the following items to the Director for Institutional Effectiveness:
 - o Instructions for the Signature Assignment (*Appendix B*),
 - o Rubric for the Signature Assignment (*Appendix F*),
 - o Course syllabus
 - o For a full list of items to consider and remember, please see the Cheat Sheet and Things to Keep in Mind (*Appendix C*)

February to April

- Please engage in the data collection process by administering your Signature Assignment
- If you have been selected to be a Faculty Evaluator (*Appendix D*) for other faculty Signature Assignments, please attend all relevant trainings, review all relevant materials,

or contact the Director for Institutional Effectiveness with potential questions you may have.

- Review Academic PLO/CC reports each semester. Review Annual Assessment Report every year (*Appendix E*).

May

- Before you depart for the summer, please make sure you have submitted the following items to the Director for Institutional Effectiveness:
 - o All “unscrubbed” (has student names on them) student Signature Assignments,
 - o Make sure that you know which of your fall courses are needed for the Assessment Plan. Plan accordingly!

Appendix A: Course Syllabus Template

A syllabus is like the blue print of the course and it is part of the archived documents that the College preserves for future reference. A syllabus is a learning tool, an agreement between the instructor and the student, a document that clearly informs the students about the objectives and requirements of the course, and how their performance is evaluated. It demonstrates to our external reviewers how we actually advance the College's teaching mission, institutional learning outcomes, and program objectives. It clearly describes what is covered in a course so that when students wish to transfer credits to another institution, the receiving institution can make an informed decision about the course's transferability. A well-constructed syllabus and faithful adherence to its provisions are essential to assure fairness to students and protection for the instructor.

The following components should be represented in every course syllabus. This template indicates the minimum required elements for a course syllabus; departments may require additional elements, and individual professors have the option of including more if they wish.

A. Course Identification

Course
 Number and
 Title
 Number of
 Credits
 Meeting Days,
 Times & Location
 Current Semester
 Prerequisite(s) (courses, permission of instructor, etc.)

B. Instructor Information

Name
 Office Number and
 Location Office
 Phone
 Number/Extension

 Email Address

C. Course Description (from Catalog)

Please add the exact course description found in the course catalog. Of course, you may expand on to this very concise course explanation by adding a separate paragraph following this course catalog description!

D. Program Learning Outcomes and Course Learning Outcomes

Indicate the chief objectives of the course. State each learning outcome. Indicate how each learning outcome will be assessed (i.e. exams, quizzes, labs, formal papers, informal writing assignments, daily homework, projects, oral presentations, and/or class participation, etc.)

Please only list the PLOs that are being supported or assessed in your course. Do not list all PLOs. If your course is part of the College Assessment Plan and features a Signature Assignment, please make sure to emphasize the assessed PLOs by marking them with an asterisk. In addition to your PLOs, your course might reinforce certain CORE Competencies. If this is the case you are encouraged to list these as well. Keep in mind that you do not need to assess all outcomes at once!

Also, please make sure your Signature Assignment is clearly described in your syllabus.

E. Course Materials and Resources

A listing of required texts and other required readings (e.g., library reserves, photocopied materials, websites, articles on *Populi*) and any other materials needed for the course.

F. Course Evaluation Methods

Should include both the method of assessment (Exams, Written Assignments, Oral Projects, Other) and the percentages of each as a part of the final grade). Note: Some instructors may wish to include additional details; for example, the types of formal papers required (response paper, critical paper, etc.) as well as any rubrics to be employed. Please address your Signature Assignment here. For transparency purposes, please indicate how it will be used for program assessment.

G. Course Grading:

Outstanding		Very Good		Satisfactory		Poor	
A+	100-97%	B+	89-87%	C+	79-77%	D+	69-67%
A	96-93%	B	86-83%	C	76-73%	D	66-63%
A-	92-90%	B-	82-80%	C-	72-70%		
D-	62-60	Fail	59% and below				

H. Special Needs – According to the Americans with Disabilities Act, any student who has a disability which may interfere with his or her ability to complete the requirements of this course has a right to request special accommodation from the instructor or to ask for assistance from the college counselor.

I. College Policies

All syllabi should include statements that are consistent with current college policies

concerning:

- Academic Honesty (reference to catalog)
- Attendance
- Classroom Conduct (Late arrival, use of cell phones, internet, etc)
- Disabilities Accommodation
- Incompletes/Withdrawals (reference to catalog)
- Late Assignments
- Make-up Assignments, Tests and Exams

J. Course Calendar

At a minimum, provide an outline of the topics or units that will be covered in the course. Include dates of exams and due dates of readings, major assignments/papers/projects, etc.

K. Bibliography or Supplemental Material (OPTIONAL)

Provide a list of recommended readings and other materials.

L. Any Helpful Tips on Doing Well in the Course

M. Disclaimer regarding the option of the professor to modify the syllabus and the calendar.

Indicate how changes in the syllabus will be communicated. Changes in the syllabus should be announced in a timely manner, both orally and in writing.

Appendix B: Signature Assignment for XXX [Insert which PLOs are addressed via the assignment]

Course: [Please fill in these sections to correctly reflect your course.]
Instructor:
Assignment Title:
Assignment ID: (To be assigned)

Outcomes to be Assessed: Please insert the PLOs (full text) that will be addressed via your course.
Example: TRS/BA/1 - Articulate the basic doctrines, traditions, and scriptural interpretations of the Church.

TRS/BA/3 - Develop attitudes and skills necessary for ecumenical, interreligious, intercultural, and secular dialogue in mission.

Assignment Description: [Please describe your assignment here. What exactly do you expect your students to complete for this assignment? What must they do in order to succeed? Be as detailed as possible. Note that this section addresses different items than the “Evaluation Criteria” section below.]

Example: Drawing from our study of Hebrew Scripture, this assignment challenges you to engage with a “troubling” theological text. One of the most common questions asked of Christians is how they can call the Bible sacred, when it contains stories that are violent and disturbing. In order to clearly articulate the basic doctrines, traditions, and scriptural interpretations of the Church (TRS/BA/1), you will first write a paper in which you analyze one of these difficult stories. Then, you will present the results of your research to the class—thereby practicing skills that are necessary for ecumenical, interreligious, intercultural, and secular dialogue in mission (TRS/BA/3).

Your research paper should be approximately eight pages in length and must employ a minimum of four scholarly sources. Your presentation should be no longer than ten minutes in length and must use at least five PowerPoint slides. The paper and presentation should be organized as follows:

- (1) State the problem
(Why is this text so troubling?)
- (2) Explain the cultural context
(How was this text understood when it was written?)
- (3) Explain the theological context
(How ought this text to be understood now?)
- (4) Conclusion
(Restate the problem and summarize what you learned)

Keep in mind that your goal is not to “solve” the issue, but to engage with a difficult topic (through research) and to develop skills to share what you have learned with others (through presenting your findings to the class).

Evaluation Criteria:

Example [Please list your specific Evaluation Criteria here. Note that this is different from the “Description” part and focuses on how you are planning on assessing the assignment, not what you expect it to entail.]:

The project will be evaluated based on the following criteria. See the attached rubrics for further details.

Paper (Written Communication VALUE Rubric)

1. Context and Purpose for Writing: Students will demonstrate awareness of the implied audience for this project, namely, a person who is struggling to engage with a troubling theological text.
2. Content Development: Students will explore the cultural and theological context behind a troubling theological text.
3. Genre and Disciplinary Conventions: Students will organize their writing by following the instructions provided in the assignment description.
4. Sources and Evidence: Students will engage with at least four scholarly sources.

5. Control of Syntax and Mechanics: Students will utilize language skills to cogently convey information.
-

Formatting:

Example [Please address your formatting requirements here. For some subjects this section/option might not apply.]:

Use Chicago Style.

Times New Roman 12-point font; double-spaced; 1-inch margins

Possible Topics:

Example [Please add a few possible topics that your students may use here. This list is not exhaustive, and for some subjects this option/section might not apply.]:

1. Creation and Evolution
2. The Binding of Isaac
3. The Plagues and the Killing of the Firstborn
4. Israel's "Holy War" against the Canaanites
5. Prophets and the Land / Ecological Consciousness

Appendix C: Signature Assignment Submission: Cheat Sheet and Things to Remember

Dear Faculty Members,

Please consider the following items as you prepare to submit your Signature Assignments:

- **Please do not scrub names. I will take care of this for you!**
- **Please do not have multiple authors contribute to the Signature Assignment. Only one author per paper.**
- **Alongside your assignments, please send me your Signature Assignment rubric and instructions!**
- **Please let me know of any changes you might make.**

If you have any questions, please let me know 😊

Thank you for contributing to the assessment efforts!
